## DETAILED ACTION

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Taiwan on September 13, 2002. It is noted, however, that applicant has not filed a certified copy of the Taiwanese application as required by 35 U.S.C. 119(b).

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Wacker (US Patent No. 6,497,442). Wacker discloses a communications center including a projection device 62 that is wireless connected to a video camera 206. The video camera 206 provides an audio and video camera signal through a wireless transmitter (antenna) to a projector 62 via a wireless receiver 210 connected to the projector 62 for projecting the video camera signal. (See Figure 1 and column 6, lines 24-65). The wireless transmission technology may be one of any of a group of well known wireless signal transmission technologies including, wireless network technology (802.11), Bluetooth technology, infrared (IR) and radio frequency (RF). (See column 6, lines 3-56).
